C-A-T® Combat Application Tourniquet Gen 7

- **Single route buckle** decreases application time to help decrease blood loss, allows for slack removal for proper TQ application
- **Applied same way** to both upper and lower extremities
- True **one-handed tourniquet**
- **Scientifically proven** 100% effective in occluding blood flow in both upper and lower extremities by the USAISR and recommended by CoTCCC

**The FASTEST, SAFEST,
Most EFFECTIVE
Prehospital Field Tourniquet!**

ENHANCED ARS™ Air Release System

3.25 inch

10ga ENHANCED ARS™

Needle Hub
(no flash chamber)

10ga fenestrated catheters were shown to offer marked increase in air outflow and a corresponding decrease in time to relief of tension, when compared to all NDC Catheters

Catheter Hub
color identifies needle catheter gauge

10ga (or 14ga) 3.25-inch Flexible Catheter to decrease incidence of catheter kinking, in concert with modified insertion recommendations from leading experts in pulmonology, critical care, emergency medicine, and trauma surgery.

Centimeter Markings
(with contrasting colors that are NVG compatible) for safer placement utilizing "thoracic depth control"

Fenestrations showing statistically significant improvement in tension relief and the prevention of distal catheter occlusion when compared to traditional non-fenestrated catheters

"It's time to rethink needle decompression techniques and device characteristics to optimize success"

Crēdo PROMED™ SERIES FOUR CONTAINER

These hand portable, highly durable and convenient to use soft-sided bags offer: Easy conditioning of the TIC™ system panels which makes the ProMed a simple, nimble, and consistently reliable option. Once the TIC™ system panels are staged and properly placed inside the Vacuum Insulated Panel (VIP) assembly, simply insert payload content and be on your way.

- Temperature-controlled portable medical transport bags that thermally protect the integrity of valuable medical supply payloads for 48 - 96 hours
- Outer Container: Ballistic nylon fabric with durable web strapping and secure buckles
- Featuring the patented Thermal Insulation Chamber (TIC™) panels with phase change material and VIP components contained within to consistently protect medical materials such as blood and platelets within 2-8°C.
- Available in 3 capacities: 2L, 4L & 8L

SPECIFICATIONS

2 Units: Volume: 2L

*Ideal for use with
the Quantum and
LifeFlow devices to
provide a complete blood
delivery package*

LIFEWARMER™ Quantum™ IV Fluid & Blood Warming System

- **Lightweight** The Quantum™ has the lightest operational weight of any portable blood & fluid warming system (Total Operational Weight: 22 oz)
- **Powerful** Warms two units of 39°F (4°C) refrigerated whole blood at 100mL/min+ on a single charge
- **Compact** Fewest components to carry (three)
- **Fast** Warm-up time of only 24 seconds
- **Intuitive** The thermal transfusion/infusion set looks, handles, and sets up/primes like any conventional IV set
- **Safe** Tested safe for blood, blood products & IV solutions

SPECIFICATIONS

Total Operational Weight: 22 oz
(Quantum™ Controller, Battery & TTS-B)

- **Effective** The system is plug-and-play for ease of setup under stressful conditions such as tactical field care (only two connection points, with no plug orientation or set-up order requirements – system status constantly visible at a glance)
- **Complete** Does not require additional standard transfusion or infusion set – all other warmers do
- **Tactical** Only system FDA cleared allowing easy disable of audible alerts to protect operators in combat

> RESUSCITATE

500 ml in < 2 minutes
Stay with Your Patient

Deliver first bolus quickly to reverse hypotension in patients with shock

- Provide active resuscitation
- Maintain control over delivery

> RESTORE

**Improve Perfusion /
Reverse Shock**

Assess using vitals & bedside markers of perfusion, decide if additional fluid bolus is needed.

Early fluids more rapidly reverse shock & **improve outcomes**.¹⁻³

> REASSESS

Rapid Decision / Disposition

Each bolus delivered provides an opportunity to evaluate and determine next steps.

Faster resuscitation may lead to:

- Less mechanical ventilation⁴
- More rapid disposition
- **Less donning/doffing of PPE**

LifeFlow® PLUS **BLOOD & FLUID INFUSER**

- Hand-operated, rapid infusion device that allows health care providers to deliver fluid & blood products quickly and effectively
- Deliver 500ml of fluid in less than 2 minutes through a 20G IV catheter
- Deliver 1 unit of whole blood in 2 minutes
- Goes from the field to the hospital
- Can be operated with one hand
- Handle and tubing packaged together for quick and easy set-up
- Designed to protect the syringe from bacterial contamination
- Average time to set up and prime: less than 3 minutes

SPECIFICATIONS

12 in. x 7.5 in. x 2.75 in.
Weight: 0.95 lb

Vacuum Bag

Call or Email us TODAY to discover all your options for the tailored lifesaving solution YOU can live with!

Explore all the possibilities at
NORTH AMERICAN RESCUE®
www.NARescue.com • 888.689.6277

First responders have increasingly become **the target of violence** in recent history.

Nationwide, **violent crime is rising** at an alarming rate, translating to a higher call volume. With the **sharp decline** in the **police presence** which has historically provided scene safety for Fire/EMS, First Responders are experiencing a **dramatic increase** in **dangerous** and **potentially violent situations** in their everyday operations. Unfortunately rescuers in the Fire/EMS arena can be perceived as just another target for potential life threatening violence along with their law enforcement counterparts.

Now more than ever, your **personal safety is paramount** in the performance of your duties. Wearing **ballistic protective equipment (BPE)** is one of the best ways to **help protect yourself** in a violent environment.

PROTECT Yourself & SAVE Lives...

Law enforcement transitioned to wearing body armor on a daily basis in the 1980s because they realized it was an essential component of their daily equipment.

It saves lives! In the same way, BPE is critical for Rescue Task Force (RTF) and Tactical Emergency Medical Service (TEMS). Fire/EMS should now consider Ballistic Protection Equipment for daily wear on any call that could result in violence or an unsafe environment.

Protecting Yourself means you can Save others AND Live to serve another day!

NORTH AMERICAN RESCUE®

Education and Training

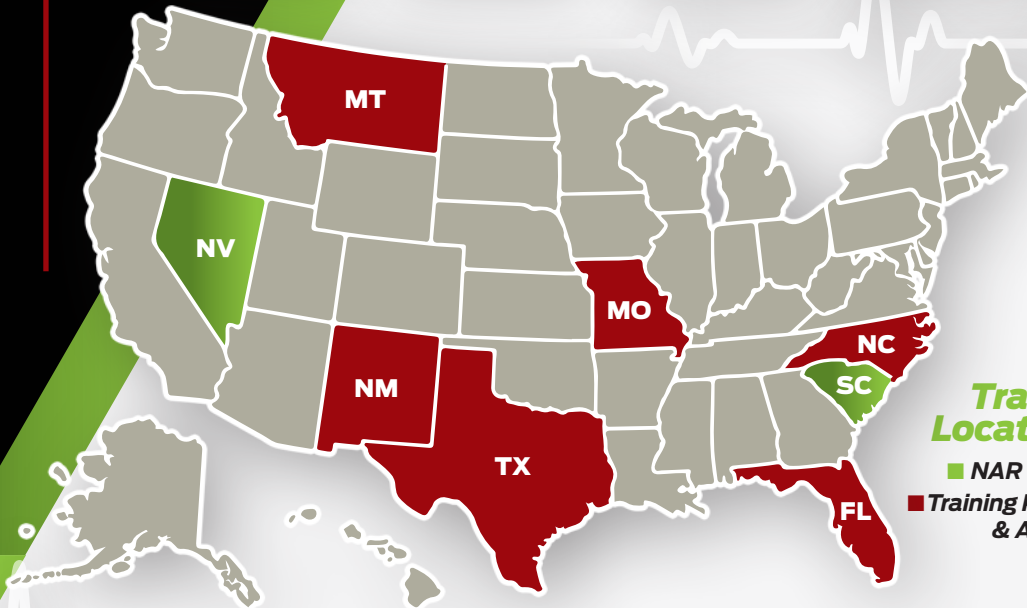

North American Rescue Education and Training

has roots that run deep and wide in the world of pre-hospital medicine and technical rescue. Our team was built from the ground up on the vision and experience of seasoned military medics seeking to fill the training gaps commonly encountered in the operational environment.

Since then, we have continued to broaden our vision to include other invaluable first responder perspectives such as pre-hospital healthcare providers in civilian, law enforcement, emergency medical services and community public safety initiatives.

CORE Competencies

- Continuing Medical Education (CMEs)
- Prolonged Casualty Care
- Austere Medicine
- Technical Rescue
- Emergency Medical Services
- Critical Care Flight Medicine

Training Locations:

- NAR Training
- Training Partners & Affiliates

ACCREDITATIONS:

American Heart Association®

Now SAME DAY Cards Issued At End Of Course!
