HANDGUN WEAPONLIGHT SYSTEMS

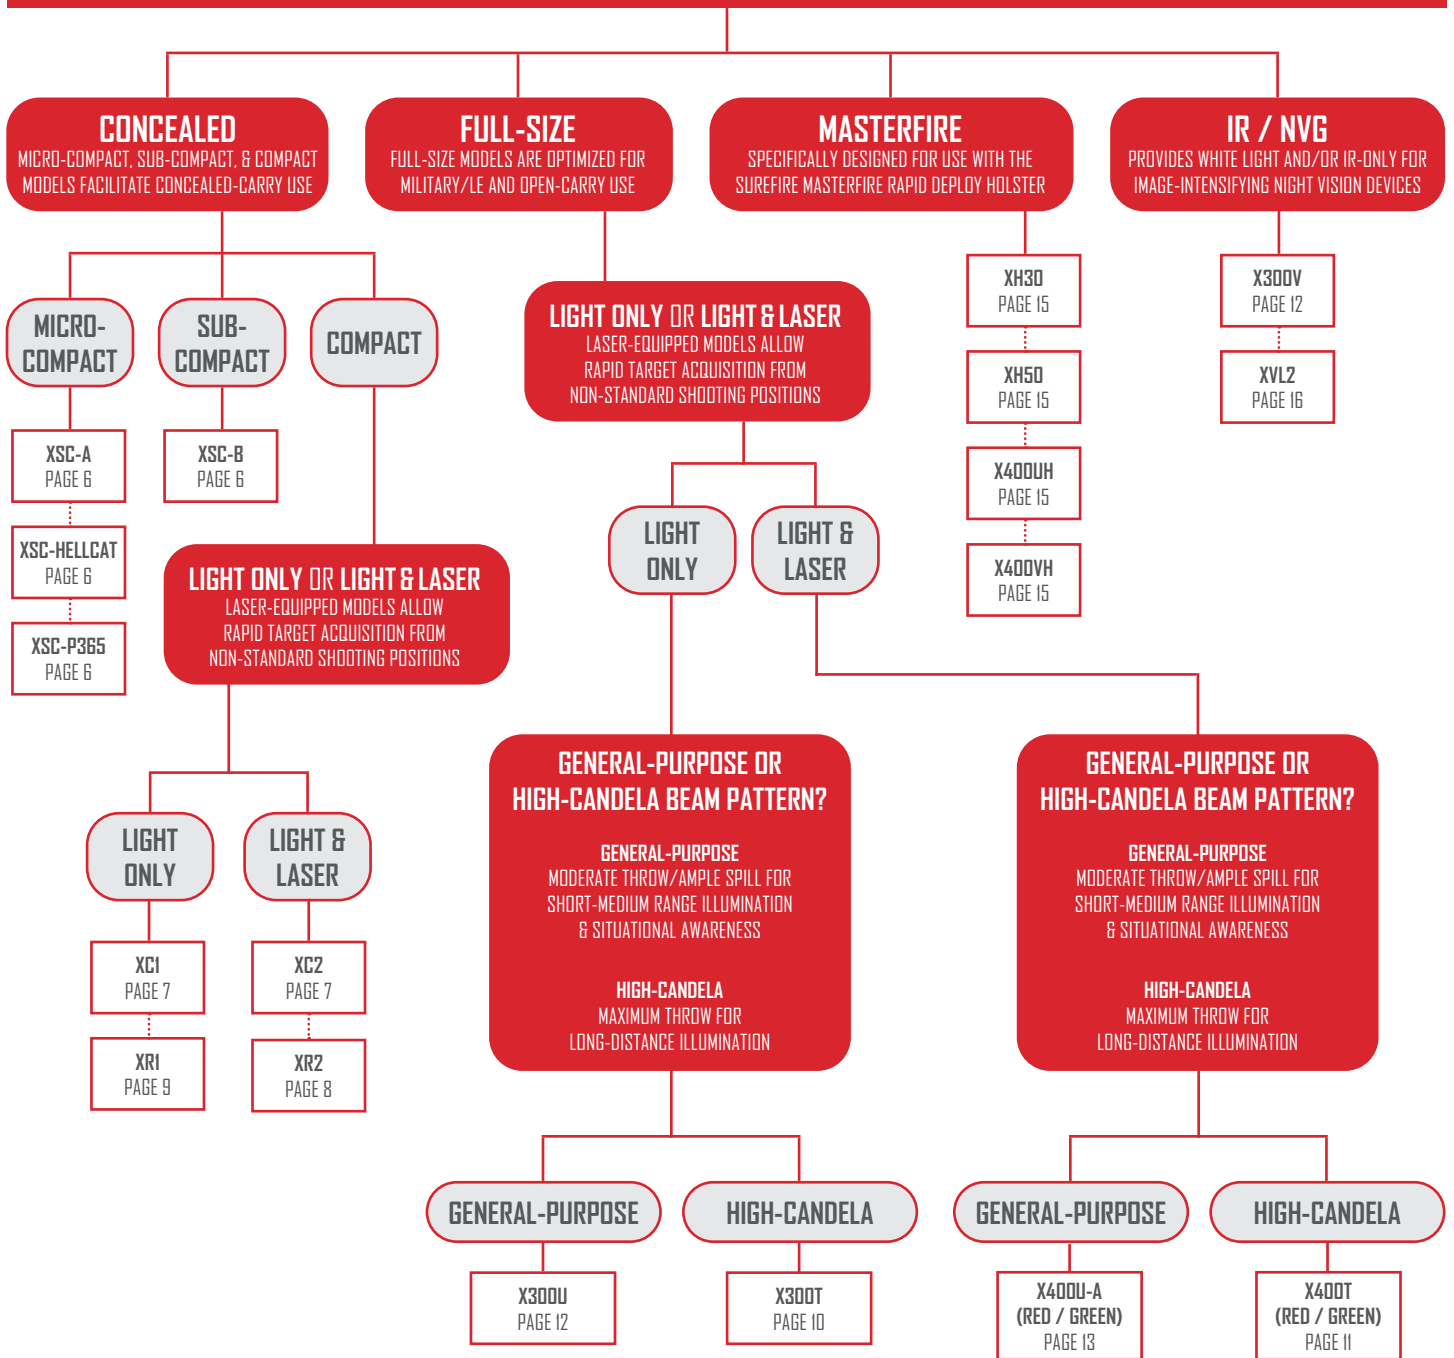

THE STANDARD OF EXCELLENCE

SureFire pioneered the dedicated handgun WeaponLight, and our latest models showcase our decades of experience manufacturing the finest tools of their kind. Whether you need white light only, light & laser, infrared illumination, infrared laser capability—or all the above in one unit—we've got your back. Like every SureFire handgun WeaponLight, our new X300T-A, X300T-B AND X400T full-size high-candela models, new XR rechargeable compacts, and XSC micro-compacts deliver duty-grade durability and life-saving reliability while remaining lightweight and low-profile. We refuse to sacrifice quality for cost savings. That's why our handgun WeaponLights provide peace of mind when you need it most.

LEVEL 3 RETENTION

Proprietary lug-and-cam system locks the firearm in place, utilizing primary and secondary locking mechanisms released by an ergonomic thumb latch and secondary lock

HOLSTER POSITION

Optimized angle for a fast, consistent draw stroke every time

ADJUSTABILITY

Customizable for personal preferences and adjustable to fit most any pistol belt

COMPATIBILITY

Accommodates a wide variety of handguns; interfaces with Safariland QLS system

VIRTUALLY UNBREAKABLE

With the secondary lock mechanism engaged, it takes 600 lbs. of force to break a weapon out of the MasterFire holster

INSTANT ACTIVATION

The MasterFire's switch can be set to automatically activate any SureFire H-Series WeaponLight on the draw, saving precious time in high-stress situations

LOCKOUT FEATURE

The MasterFire deactivates the WeaponLight when the gun is holstered, and can be set to prevent light activation on the draw

SUPPRESSORS & RED DOTS

Open design accommodates red dot optics and suppressors, including the SF® RYDER Series

LONG-GUN WEAPONLIGHT SYSTEMS

A PROVEN ECOSYSTEM

Since the very beginning, SureFire long-gun WeaponLights have helped increase good-guy survivability. Engineered with combat-proven technology, they've earned their reputation for durability and reliability you can trust with your life. Our Scout Light® Pro line is also the most versatile WeaponLight family money can buy, available with a variety of switching options to tailor every model to your needs. For 2022 we're proud to announce two new high-candela Scout Light Pro models, the M340DFT and M640DFT, both guaranteed to meet our uncompromising quality standards and thrive in the most hostile conditions on Earth.

PREMIUM LED

We equip every Scout Light Pro with the finest-grade ultra-high-output LED for recoil-proof durability and reliability. Our sophisticated electronics maximize output and runtime

HARD-ANODIZED

All Scout Light Pro models are coated with MIL-A-8625 Type III, Class 2 hard-anodizing for corrosion resistance and durability in the most extreme environments

ACTIVATION

All Scout Light Pro models ship with shrouded tailcaps, that provide both momentary-on and constant-on, and protect the switch from accidental light activation

M-LOK MOUNT

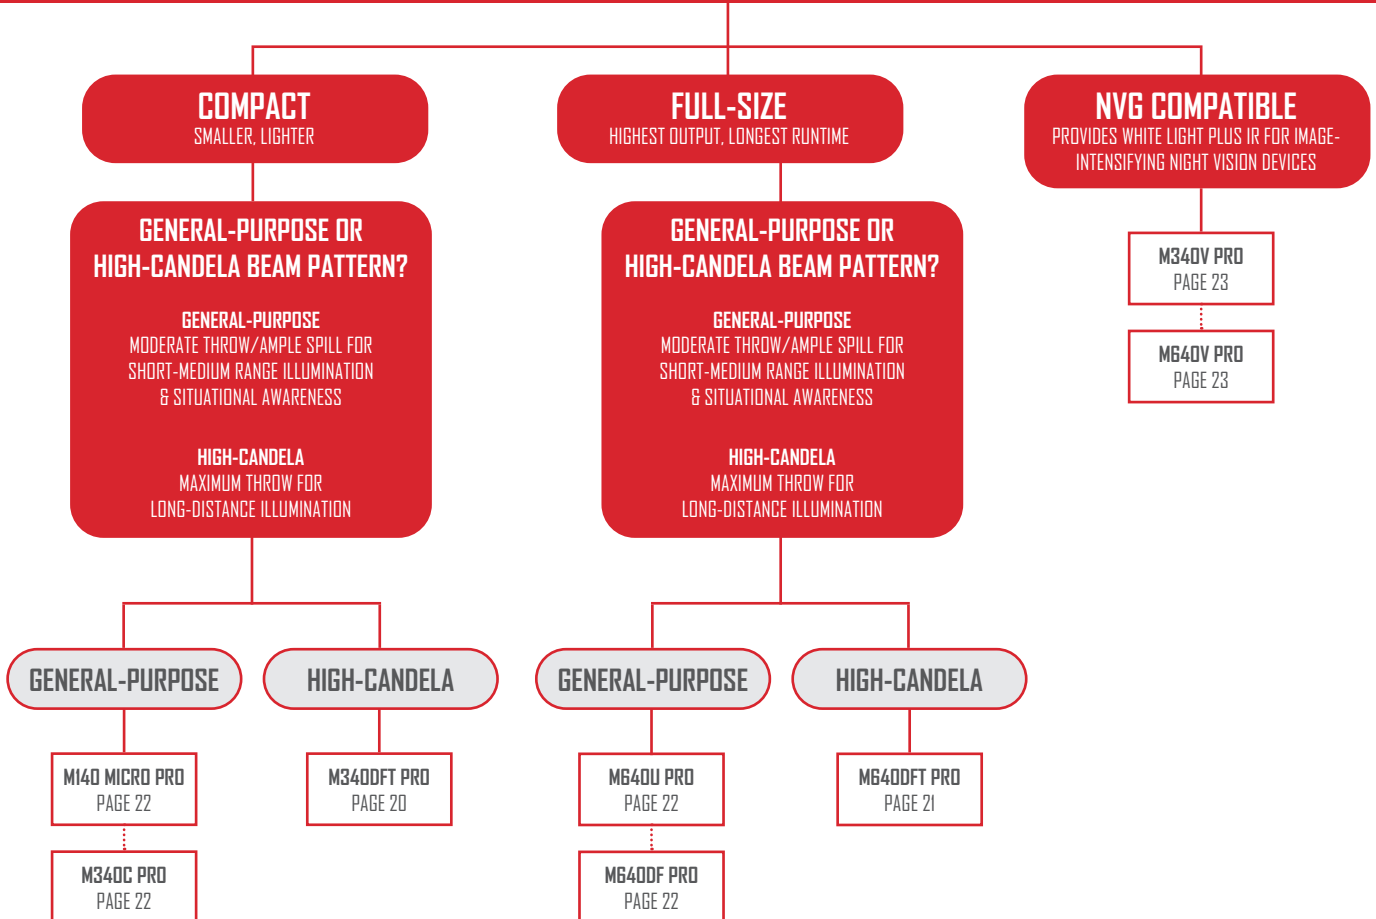

SureFire ships every Scout Light Pro with mounting cleats for M-LOK rails and Picatinny rails

LPM: LOW-PROFILE MOUNT

LPM allows you to pivot and lock in the WeaponLight's position, either to clear accessories, or to get the light as close to the weapon as possible for the ultimate low-profile mounting solution

HANDHELD LIGHTS

AN UNFAIR ADVANTAGE

SureFire created the first compact tactical flashlight in 1986. Since then, we've been providing customers with an unfair advantage in any low-light scenario you can imagine. We offer a handheld for every task—no matter how big or small—delivering maximum output with minimal size, and the best quality in the business. For 2022, we've added three new high-candela models, the Commander, EDC1-DFT and EDC2-DFT, to our everyday carry family. Like every SureFire illumination tool, they use only the finest LED emitters, sophisticated electronics, and robust bodies. They're the latest chapters in a legacy of unmatched durability, brilliant performance, and rugged reliability not available from any other flashlight brand.

HANDS-FREE LIGHTS

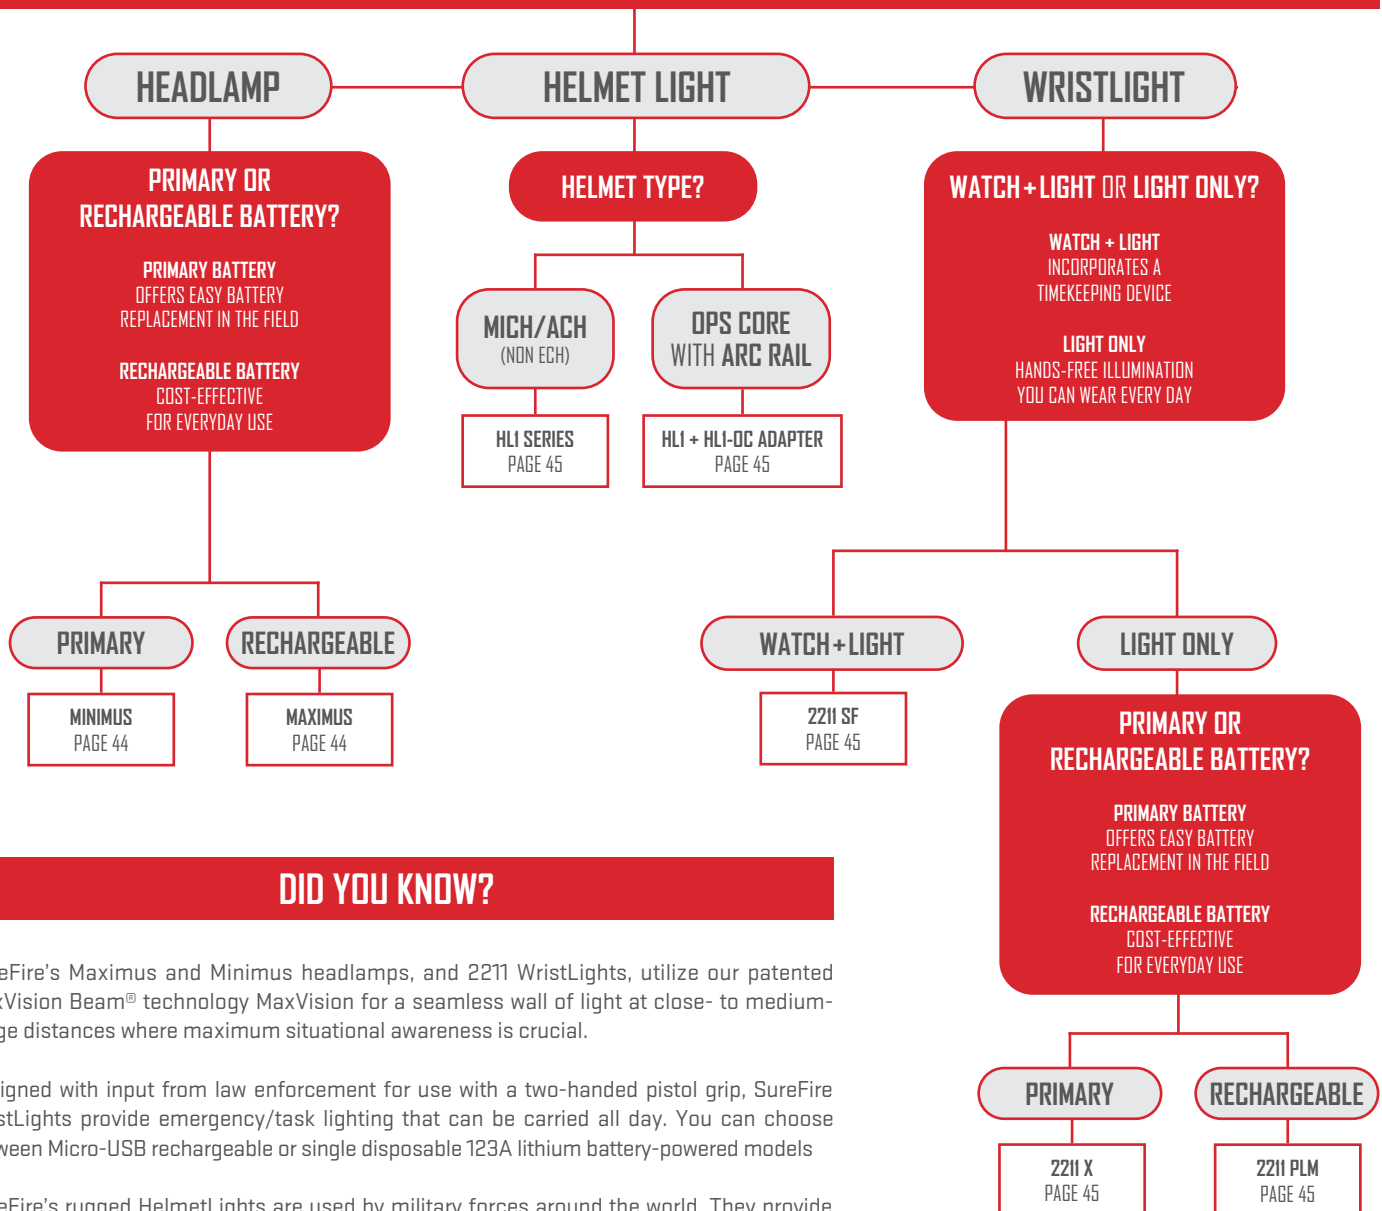

TWO HANDS ARE BETTER THAN ONE

Sometimes a tough task requires two hands to complete. SureFire headlamps and 2211® WristLights allow you to focus on a given task without having to hold a flashlight in one hand. Our Maximus® and Minimus® headlamps provide critical support whether you're hiking in a dark forest or working on a vehicle in your driveway. Developed with input from law enforcement professionals, 2211 WristLights are a revolutionary approach to hands-free lighting. SureFire HelmetLights are designed primarily for military use, and they attach to nearly any military helmet. And they all meet our strict performance and durability standards.

CHOOSE YOUR HANDS-FREE LIGHT

DID YOU KNOW?

- SureFire's Maximus and Minimus headlamps, and 2211 WristLights, utilize our patented MaxVision Beam® technology MaxVision for a seamless wall of light at close- to medium-range distances where maximum situational awareness is crucial.
- Designed with input from law enforcement for use with a two-handed pistol grip, SureFire WristLights provide emergency/task lighting that can be carried all day. You can choose between Micro-USB rechargeable or single disposable 123A lithium battery-powered models
- SureFire's rugged HelmetLights are used by military forces around the world. They provide trouble-free illumination for close-quarter tasks, and they fit nearly any helmet, including ACH, LWH, MICH, or PASGT, without permanent modification to the helmet.

BATTERIES

SUPREME POWER, LONG-TERM RELIABILITY

SureFire is an innovator in the battery market as well as the tactical illumination, suppressor, and hearing protection markets. Years ago, our pursuit of greater energy density and more compact flashlights led us to pioneer the use of 123A lithium primary batteries in our flashlights and collaborate with the battery industry to make 123A batteries more useful. Today, we continue to offer the best batteries in their respective classes, and we're proud to announce the new 18350 rechargeable for use in our new 3-volt Dual Fuel products. Whether you choose primary or rechargeable SureFire batteries, they are the best energy sources for your needs, and they offer a 10-year shelf life, so they're ready when you need them.

DID YOU KNOW?

10-YEAR SHELF LIFE

Unlike alkaline batteries, SureFire 123As won't corrode in your emergency gear. They're ready when you need them, every time

SHORT CIRCUIT PROTECTION

Unlike cheap imports, our 123As have built-in protection circuits to keep cell chemistry stable and prevent overheating or discharging at an abnormal rate

WIDE TEMPERATURE TOLERANCE

SureFire 123As won't degrade when used or stored in harsh conditions, making them excellent for emergency use in extreme hot or cold

GET MORE, SAVE MORE

Our 123As are available in bulk quantities to save you a lot of money when compared to other 123A batteries

MICRO-USB PORT

SureFire's SF18650B and new SF18350 are high-performance, protected lithium-ion batteries that are easily recharged via an integrated micro-USB port, saving you money

RECHARGEABLE

SureFire SFLFP123 batteries and the SFLFP123-KIT charger kit provide 123A lithium users with a cost-effective alternative to 123A lithium primary cells by offering the convenience of recharging

FREQUENTLY ASKED QUESTIONS

QUESTION

Will the SureFire 123As work in other devices?

ANSWER

Yes, the SureFire 123As will work well in any device that uses a 123A battery.

QUESTION

Can SureFire 123As be recharged?

ANSWER

No, you will have to purchase rechargeable batteries. Please see our SFLFP123-KIT that includes a two-bay charger.

QUESTION

What is the difference between 123A and CR123A?

ANSWER

There is no difference between the two, both will work for any 123A device.

QUESTION

Can I use an 18650 to operate a non-Dual Fuel SureFire Product?

ANSWER

An 18650 will not fit into a non-Dual Fuel SureFire product.

SUPPRESSORS

THE WARFIGHTER'S SUPPRESSOR

SureFire SOCOM Fast-Attach® suppressors were chosen by the United States Special Operations Command (SOCOM) after crushing all competitors in the most rigorous suppressor trial in U.S. military history. Our suppressors have a verifiable record of durability and reliability in the harshest and most hostile environments. They eliminate muzzle flash and attenuate sound so you remain virtually undetectable to an enemy. Every SOCOM suppressor is test-fired and proven to maintain minimal and consistent sub-MDA point-of-impact shift before it ships to a customer. Our patented Fast-Attach® system allows virtually instantaneous attachment and removal, hot or cold. SureFire suppressors are 100% designed, engineered, and Made in the U.S.A.

MUZZLE DEVICES

CRITICAL LINKS IN THE CHAIN

SureFire WARCOMP™ adapters, flash hidiers, muzzle brakes and training devices are the preeminent tools in their respective classes, bar none. All are designed, engineered, and precision-made in the U.S.A. of the finest U.S.-sourced materials, and manufactured to perform with the utmost reliability. Our adapters have been proven to outlast the barrels on which they're mounted. Our Blank Firing Adapters and Suppressor Trainers closely mimic equivalent SureFire suppressors, enhancing the realism of the training experience, while our Blank Safety Devices provide critical safety during firearms training exercises. Our Warden blast regulators keep your rifle's blast pressure where it belongs, forward of the muzzle. If you won't settle for less than the best, there are no other options.

DID YOU KNOW?

- + Designed to meet the needs of our warfighters and law enforcement officers as well as law-abiding citizens, SureFire SF3P flash hidiers eliminate 99% of muzzle flash from the very first round fired, helping to ensure that the shooter's position will not be compromised by excess flash when the weapon is fired. They interface seamlessly with SureFire SOCOM suppressors.
- + The SureFire WARCOMP is the world's most shootable flash hider, eliminating 98% of muzzle flash and reducing muzzle rise to help the shooter stay on target and achieve faster follow-up shots.
- + Every SureFire SF3P flash hider or SFMB muzzle brake is precision-machined from U.S. mill-certified stainless-steel bar stock, heat-treated, and DLC-coated for extreme durability and corrosion resistance.
- + Every SureFire SFMB muzzle brake utilizes SureFire's Impulse Diffusion design to help protect others who may be positioned to the left or the right of the weapon. The design incorporates venting that also mitigates blast and rear concussion directed toward the shooter, allowing for easier target tracking and faster shot-to-shot recovery

WARCOMP-762-5/8-24	084871324632	PORTED 3-PRONG FLASH HIDER FOR 7.62 CALIBER

PORTS

The WARCOMP's proprietary porting mitigates muzzle rise for faster follow-up shots while still eliminating 98% of muzzle flash

FLASH HIDER

Provides approximately 98% reduction in muzzle flash compared to a bare muzzle; helps conceal the shooter's location and preserves dark-adapted vision

FAST-ATTACH® COMPATIBILITY

WARCOMP's readily accept SOCOM Fast-Attach suppressors, providing rock-solid attachment with no tools required

WARCOMP™ CTN

PART #	UPC	DESCRIPTION
WARCOMP-556-CTN-1/2-28	084871325516	CLOSED-TINE FLASH HIDER FOR M4/M16/AR VARIANTS

CLOSED-TINE

Reduces visible muzzle flash while greatly reducing the chance of snagging the muzzle on objects in the field

STRONG & DURABLE

WARCOMP's are manufactured from U.S. mill-certified stainless steel bar stock, heat-treated, and DLC-coated for extreme durability and corrosion resistance

PRECISION-MACHINED

Every SureFire muzzle device is precision-machined in the U.S.A. to the utmost tolerances for repeatable accuracy and supreme durability.

SF-BSD-556

INCREASED SAFETY

Designed for use with the MK18 rifles with 10-inch to 12-inch barrels, the SF-BSD-556 allows normal weapon cycling and function and provides critical safety during training exercises by containing up to three accidentally loaded live rounds of M855 ammunition; emits a loud warning blast when live ammo is used

SF-BSD-556-M4

INCREASED SAFETY

Designed for use with the M4 and AR-variant rifles with 14.5-inch to 16-inch barrels. The SF-BSD-556-M4 allows normal weapon cycling and function and provides critical safety during training exercises by containing up to three accidentally loaded live rounds of M855 ammunition; emits a loud warning blast when live ammo is used

WEAPON COMPONENTS

WHEN GOOD ISN'T GOOD ENOUGH

Our expertise extends well beyond tactical illumination tools, suppressors and related accessories, and hearing protection. SureFire weapon components increase the accuracy and efficiency of modern sporting rifles. The SureFire Optimized Bolt Carrier (OBC) improves weapon function during both unsuppressed and suppressed firing. Dueck Defense Rapid Transition Sights (RTS) are the ultimate alternate sights, designed to enhance shooting performance while seamlessly mounting onto the rifle's rail. SureFire High-Capacity Magazines reduce reloads to keep you on target and in the match or in the fight. These products are 100% Made in the U.S.A., and they are proven everywhere, from hostile conflicts to competitive shooting sports.

DID YOU KNOW?

- + The OBC's long-stroke design delivers 60% more travel beyond the magazine, increasing magazine feed time and reducing the chance of bolt-over-base malfunctions.
- + The OBC's improved cam path delays bolt unlocking for a 15% decrease in chamber pressure before unlocking. Dual-spring OBC dwell weight significantly delays bolt carrier direction change, increasing reliability.
- + The OBC system includes an optimized bolt carrier, buffer spring, and proprietary long-stroke H-weight buffer.
- + RTS mount directly to the top Picatinny rail of the rifle at a 45-degree offset and the same height above the bore as standard M4/M16A4 sights. No special tools are required. Our low-profile design doesn't interfere with the rifle's primary optic and is compatible with military infrared laser/illuminators.
- + SureFire High-Capacity Magazines hold 60 rounds of ammunition; twice the capacity of standard magazines equals half required reloads. They measure 1.66" thick, less than two 30-round magazines clipped together. They also utilize nesting polymer followers to ensure smooth feeding, Cadmium-coated springs that prevent binding and breakage, and Mil-Spec hard-anodizing for maximum durability.

HEARING PROTECTION

AUDITORY SALVATION

Simply put, SureFire EarPro® Sonic Defenders® save your hearing. The finest in-ear, non-electronic hearing protection available, they employ superior technology to prevent noise-induced hearing loss whether you're exposed to constant noise or impulse noise above 85 dB. You can choose between two styles: full-block, for maximum protection on the range, or filtered, to eliminate harmful noise while allowing users to hear tactical communication and ambient sounds. Effective, comfortable, durable, and reusable, SureFire EarPro Sonic Defenders are a top choice for everyone, from tactical professionals to industrial workers who perform their duties in high-noise environments.

DID YOU KNOW?

- + Sonic Defenders provide a cool, all-day comfort fit. They are minimally obtrusive and don't affect cheek weld on the stock when firing a rifle like earmuff-style hearing protection does.
- + SureFire's EarLock® retention rings lock the earplug/piece in place with seven "grab points," ensuring a proper fit and protective seal inside the ear canal. You can choose between SureFire's ergonomically correct curved flanges or replaceable Comply® Canal foam tips.
- + Sonic Defenders filters reduce harmful sound while allowing users to hear conversations. Users can easily open or close the caps; the closed position provides greater NRR/impulse noise attenuation.
- + SureFire full-block Sonic Defenders provide maximum NRR/impulse noise attenuation and are intended for users who don't need to hear conversational tones.
- + Sonic Defenders are available in Black, Orange or Clear. Every set comes in a convenient carrying case and includes a retention lanyard.

APPAREL & ACCESSORIES

LOOK THE PART

SureFire's all-new apparel and accessory line, includes hats, T-shirts, and Nalgene bottles. Our latest T-shirt designs utilize a brand new 60%/40% cotton/poly blank for comfort, durability, and a great fit. They are available in sizes S-2XL. The perfect choice for everyday wear, our new Multicam Black Hat sports a bold yet refined black camouflage pattern and rubber heat-transferred SureFire logo. Our cotton mesh Range Hat is light and breathable, with a deleted top button for greater comfort when used with hearing protection. SureFire 1-liter Nalgene bottles allow you to transport your favorite beverage with style. They're BPA, BPS, and Phthalate-free, eliminating health risks associated with these chemicals.

DID YOU KNOW?

- + Surefire has always prioritized building the highest-quality products, manufactured right here in the U.S.A. The 1979 shirt pays homage to our philosophy with a fundamental lockup logo design on a striking cardinal red tee. It's a true everyday casual shirt.
- + The Flank (side hit) shirt's chest and neck sport SureFire's low-key button logo while the right-flank of the shirt sports a powerful SureFire logo. It looks great at the gym, at the range, and anywhere else in your world.
- + Capturing the style of pioneering hot rodders of the 1950 and '60s, the MFG CO shirt is inspired by the eclectic artwork that adorned many iconic speed equipment manufacturers, gas stations and repair shops of the era. It's the one to wear whether you build custom cars, trucks, bikes, or like tinkering with your favorite firearm on the armorer's bench.
- + The Outdoor shirt will speak to anyone dedicated to extreme athletic pursuits from the gym to the great outdoors. Combining a bold SureFire script with a pinch of Grizzly, it calls out to motivated individuals who enjoy pushing themselves to the max.
- + The SureFire Shooting Club shirt celebrates our 40+ years of operation in the firearms industry while sticking to our roots in California. A classic color palette gives it a true outdoor instinct, making it a great choice for a variety of active pursuits no matter where you live.
- + The Sunset Mint shirt will transport you back to that over-the-top decade, the '80s, where cool TV cops dressed like fashion models and drove Ferraris and offshore powerboats. It's the perfect party shirt.
- + The Button Logo Dark Gray and Button Logo Military Green shirts sport the SureFire Button logo, which embodies our legacy of bold innovation and leadership. Proudly wear them whenever and wherever you want.
- + SureFire is synonymous with quality, performance, and lifetime durability. The Black Logo shirt bears the brand name that pioneered the tactical lighting market and developed world-class suppressors used by military forces around the globe. It's as simple as it gets.
- + The six-panel MultiCam® hat features the low-key camouflage patterns and subtle SureFire branding. With an officially licensed MultiCam® black design and rubber heat-transferred SureFire logo in gray, it's a high-quality hat that matches well with any style. It is one size fits all and can be adjusted for a perfect fit via its snapback closure.
- + The SureFire Range Hat is designed with the crown button removed for greater comfort when wearing earmuff-style hearing protection. The 100% cotton mesh un-structured cap can be worn and then stuffed in a backpack or range bag. Lightweight, it is perfect for active pursuits in hot weather.

NO-HASSLE GUARANTEE

WE'LL DO WHAT IT TAKES TO KEEP YOUR SUREFIRE GEAR RUNNING SMOOTHLY.

SureFire warrants that if you – our customer – purchase one of our products, and we determine that it is defective in material and/or workmanship during your lifetime, we will repair or replace it – no hassle!

Rechargeable batteries and chargers are warranted for two years from the date of purchase. SureFire warrants our EarPro products to be free from defects in workmanship and materials for a period of 90 days from the date of purchase. Our warranty does not cover consumables or normal wear-and-tear – things like batteries draining, headbands and headpads wearing out, ink cartridges running out, and switches wearing out – or damage resulting from abuse, alterations, unauthorized repairs, or use contrary to SureFire's user manuals.

Should you need a replacement product, SureFire reserves the right to replace an obsolete product with a current production, like model. In the event that any issue with a SureFire product is not covered under this warranty SureFire can arrange to have the product repaired for a reasonable fee.

STANDARD DISCLAIMER

EXCEPT AS SPECIFIED ABOVE OR PROHIBITED BY APPLICABLE LAW: ALL EXPRESS OR IMPLIED CONDITIONS AND WARRANTIES, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ACCURACY OF ANY INFORMATIONAL CONTENT, ARE HEREBY EXCLUDED AND DISCLAIMED BY SUREFIRE; AND IN NO EVENT WILL SUREFIRE BE LIABLE FOR ANY SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES HOWSOEVER ARISING AND REGARDLESS OF THE THEORY OF LIABILITY, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. PRODUCTS, PRICES, AVAILABILITY, SPECIFICATIONS, AND OFFERS ARE SUBJECT TO CHANGE OR CANCELLATION AT ANY TIME WITHOUT NOTICE.

EXPORT CONTROL STATEMENT

THE PRODUCTS SHOWN IN THIS CATALOG ARE SUBJECT TO UNITED STATES GOVERNMENT (USG) EXPORT REGULATIONS. THE SALE, TRANSFER, OR SHIPMENT OF PRODUCTS IN THIS CATALOG EXPORTED OUTSIDE OF THE U.S. MUST COMPLY WITH USG EXPORT REGULATIONS. IT IS THE EXPORTER'S SOLE RESPONSIBILITY TO DETERMINE AND COMPLY WITH THE APPLICABLE USG EXPORT REGULATIONS INCLUDING, BUT NOT LIMITED TO, USG AUTHORIZATION, REPORTING, AND/OR RECORDKEEPING WHERE APPLICABLE. FURTHERMORE, ANY DIVERSION, RE-SALE, RE-EXPORT, RE-TRANSFER, OR TRANSSHIPMENT AFTER AN EXPORT THAT IS CONTRARY TO USG REGULATIONS IS PROHIBITED WITHOUT THE PRIOR WRITTEN AUTHORIZATION FROM USG. FAILURE TO COMPLY MAY RESULT IN FINES AND PENALTIES BY THE USG.
